

Hello,
There are some problems in the site, please solve them.

1.The logo of my site doesn't show in the header (with the latest update of Google Chrome).

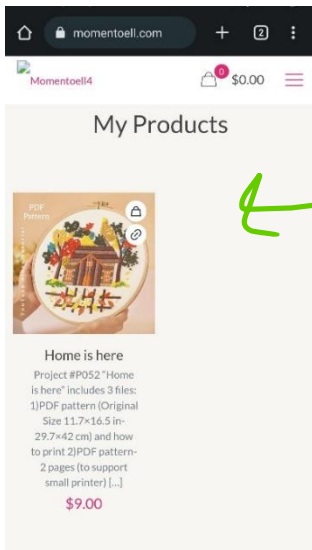

2.The "filter" section doesn't show in the "home" section.

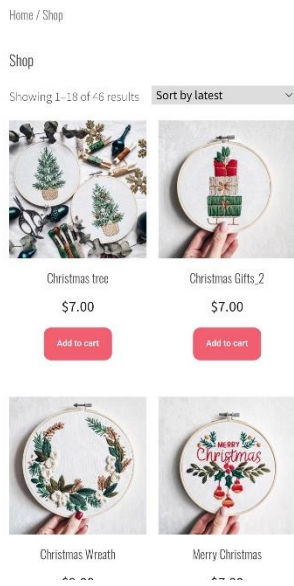

3.The filter in the "shop now" section doesn't work properly and shows the result incorrectly.

A screenshot of a checkout form. The 'Phone (optional)' field is circled in green. Other fields include 'Postcode', 'Email address', and checkboxes for 'Create an account?' and 'Ship to a different address?'. A sidebar on the right has a checkbox labeled 'I have'.

4.I want the phone number option to be optional for digital products and mandatory for physical products in the product purchase form. What should I do?

5.Products are shown small in Android and iPhone.

Ex:

I want the products to be displayed well and with appropriate sizes on Android and iPhone like this site.
