Unminified JavaScript and CSS files

i About this issue: Minification is the process of removing unnecessary lines, white space and comments from the source code. Minifying JavaScript and CSS files makes their size smaller, thereby decreasing your page load time, providing a better user experience and improving your search engine rankings. For more information, please see this Google article <https://developers.google.com/web/fundamentals/performance/optimizing-content-efficiency>. How to fix: Minify your JavaScript and CSS files. If your webpage uses CSS and JS files that are hosted on an external site, contact the website owner and ask them to minify their files. If this issue doesn't affect your page load time, simply ignore it.

Historical chart for audits

Period: September 20, 2023 (07:49) - September 21, 2023 (16:23)

Unminified JavaScript and CSS files 100
